Dear Students,

Once again we will be having our Regional Art Show in April. This is such an exciting event. This year, it should be even better. Before you sign up, I wanted to let you know of a few things that are new or different this year.

- I have increased the size for paintings and drawings to 18'x24". (They will still need to be matted, mounted, or finished off for display.)
- You must make sure that the art work that you enter is your original and not a copy of someone else's work. You can use the style and technique of an artist but not the same composition.
- Sculptures will be allowed in the Regional Show this year. However, they will not be eligible to be entered in the Statewide Show. This is because of logistics and space constraints at the convention center.
- High School Seniors - We will be having "Senior Art Shows" for interested seniors. However, space is limited. I need to know ASAP if you want to do this. (If you have already contacted me, you don't need to do it again unless you've decided NOT to participate.)
 - I will give you extra space to display any art work that you would like to display. Depending on how many students are interested, you may get a whole side room to yourself. Art work must be within the same guidelines as the main show, "Artwork that contains nudity, graphic violence, and ungodly topics will not be accepted for display."
 - These senior shows will not be judged but you can enter art into the main show.
 - You may display art work from your 4 years of high school and they may be of any size.
 - You may design and decorate your "show" anyway you'd like to. You will need to provide props or whatever you need for your display. We will just provide the space you have to do the rest.
 - Please allow yourself time to do this. You will still need to leave the building after 2:00pm to allow the Judges time to work.

We look forward to a great show this year and we hope you have a wonderful time. If you have any question let me know. Please, please, please get your registrations and bios/photos to me within the deadlines. Thank you!
